

# GROUP PROJECT

---

## LEVEL 2

Your Task is to video record yourself drumming to a song using melodies from level 2 with the help of the melody lyrics sheet provided.

What Steps do I need to take to achieve success in this project?

Step 1 : Listen to the song without drumming to get an indication of tempo and melody

Step 2 : Practice drumming with the song using the lyrics sheet to guide the mixing of melodies

Step 3 : Record yourself playing the song and take a look at the recording. Give yourself feedback

Step 4: Record a final version to submit to the teacher.  
Note: You can add upto 2 break beats if you'd like.

**Remember:**  
The tempo of the melodies may change through the song!

Note / This video will be shared on socials so if you do not want to show your face, you can record a video of the full drum and your hands
